SER. MATH. INFORM. 23 (2008), 69–96

Author Index Volumes 1 – 23 (1986 – 2008)

FACTA UNIVERSITATIS, Series: Mathematics and Informatics

A. AASMA:
Comparison of Orders of Approximation of Fourier Expansions by Different Matrix Methods **12** (1997), 233–238

U. ABEL AND B. DELLA VECCHIA:
Enhanced Asymptotic Approximation by Linear Approximation Operators **19** (2004), 37–51

B. P. ACHARYA AND T. MOHAPATRA:
Approximation of n-dimensional Integral of Analytic Function of Several Complex Variables **4** (1989), 83-88

B. P. ACHARYA AND T. MOHAPATRA:
An Approximation of Integrals of Analytic Functions ... **7** (1992), 117–121

B. P. ACHARYA, see M. ACHARYA.

M. ACHARYA, B. P. ACHARYA AND M. M. NAYAK:
Approximate Evaluation of Integrals of Analytic Functions **23** (2008), 63–68

D. ADAMOVIĆ:
Quelques remarques relatives aux fonctions primitives des fonctions réelles **2** (1987), 35–48

E. O. ADELEKE, see J. A. OGUNTUASE.

M. R. ADHIKARI:
GCD-Property in a Hemidomain **7** (1992), 17–22

R. P. AGARWAL, see E. THANDAPANI.

Prepared by GVM.

E. M. Agović, see J. E. Pečarić.

O. Agratini:
On a Sequence of Linear and Positive Operators **14** (1999), 41–48

O. Agratini and B. Della Vecchia:
Mastroianni Operators Revisited **19** (2004), 53–63

E. Ait Dads, K. Ezzinbi and O. Arino:
Existence of Periodic Solution for some Neutral Non Linear Integral Equation With Delay Time Dependent **11** (1996), 79–92

M. Akkouchi:
A Result on the Mapping H of S.S. Dragomir With Applications **17** (2002), 5–12

M. Akkouchi:
On the Mapping H of S. S. Dragomir **20** (2005), 21–31

R. I. Alidema, G. A. Leonov, V. B. Smirnova:
On One Approach to the Problem of the Evaluation of Stability Regions for Nonlinear Volterra Equations **6** (1991), 107–119

H. Alzer:
Eine komplementäre Ungleichung **5** (1990), 51–54

A. R. Amir-Moéz and R. E. Byerly:
Spheres of Transformations **3** (1988), 35–37

G. A. Anastassiou:
Stochastic Korovkin Theory Given Quantitatively **22** (2007), 43–60

I. D. Aranđelović and D. S. Petković:
An Inequality for the Lebesgue Measure and its Applications **22** (2007), 11–14

O. Arino and A. Ben M'Barek:
Periodic Solutions of a System of Differential Equations of First Order with Discontinuous Coefficients **5** (1990), 57–66

O. Arino and M. El Attar:
Necessary and Sufficient Condition for the Oscillation of Higher-order Neutral Differential System With Several Delays **10** (1995), 81–86

O. Arino et M. L. Hbid:
Sur l'unicite des solutions periodiques du systeme differentiel a retard $\frac{dx}{dt} = f(x(t-r)),\ x \in \mathbb{R}^2$ **10** (1995), 71–79

O. Arino, see E. Ait Dads.

O. Arino, see A. Bouzinab.

O. Arino, see A. Guessab.

M. Ashraf:
On Some Commutativity Theorems for Rings With Unity **7** (1992), 1–5

M. D. Ašić, see V. V. Kovačević-Vujčić.

M. J. Atia, F. Marcellán and I. A. Rocha:
On Semiclassical Orthogonal Polynomials: A Quasi-Definite Functional of Class 1 . . . . . **17** (2002), 13–34

R. Badora:
On an Invariant Mean for $\mathcal{J}$-Essentially Bounded Functions **6** (1991), 95–106

E. Bairamov and A. O. Çelebi:
Spectral Analysis of Nonselfadjoint Schrödinger Operators With Spectral Parameter in Boundary Conditions **13** (1998), 79–94

D. Banković:
All General Solutions of Prešić's Equation **17** (2002), 1–4

D. Bărbosu:
Durrmeyer-Schurer Type Operators **19** (2004), 65–72

A. Bejancu:
Coisotropic Submanifolds of Pseudo–Finsler Manifolds . **15** (2000), 57–68

A. Ben M'Barek, see O. Arino.

J. J. Betancor, L. Rodríguez–Mesa and H. M. Srivastava:
New Classes of Univalent Analytic Functions with Negative Coefficients **11** (1996), 17–27

P. P. Blaga:
An Approximate Formula for Multiple Integrals **14** (1999), 135–142

D. R. Blagojević, see D. Č. Stefanović.

V. V. Bobkov and Z. Bohte:
Adaptive Methods for Numerical Solution of Stiff Systems of Ordinary Differential Equations **3** (1988), 87–96

V. V. Bobkov, Z. Bohte and P. A. Mandrik:
Improved Correspondence Between Solutions of Differential and Difference Equations **2** (1987), 67–74

J. Bogdanović, see V. Stojanović.

S. Bogdanović:
Semigroups of Galbiati-Veronesi II **2** (1987), 61–66

S. Bogdanović and M. Ćirić:
Semigroups of Galbiati-Veronesi III (*Semilattice of Nil-Extensions of Left and Right Groups*) **4** (1989), 1–14

S. Bogdanović and M. Ćirić:
Semigroups of Galbiati-Veronesi IV (*Bands of Nil-Extensions of Groups*) **7** (1992), 23–36

S. Bogdanović and M. Ćirić :
Retractive Nil-Extensions of Bands of Groups **8** (1993), 11–20

S. Bogdanović, see M. Ćirić.

M. Bohner:
Symplectic Systems and Related Discrete Quadratic Functionals **12** (1997), 143–156

Z. Bohte, see V. V. Bobkov.

D. Bojović, see B. S. Jovanović.

M. Bouchekif and J. Gorowski:
Propriétés oscillatoires des solutions de certaines équations elliptiques **5** (1990), 67

A. Bouzinab and O. Arino:
On the Existence and Uniqueness for an Age-Dependent Population Model With Nonlinear Growth **8** (1993), 55–68

M. Božinović and P. V. Protić:
Congruences on a π-Inverse LA^*-Semigroup **9** (1994), 19–29

A. Branquinho, A. Foulquié Moreno and F. Marcellán:
On Inverse Problems for Orthogonal Polynomials Satisfying a Differential Equation **12** (1997), 87–108

R. E. Byerly, see A. R. Amir-Moéz.

A. Cachafeiro and F. Marcellán:
On some Properties of Orthogonal Polynomials Related to a Sobolev-type Inner Product on the Unit Circle **11** (1996), 67–78

N. P. Cakić:
On the Numbers Related to the Stirling Numbers of the Second Kind **22** (2007), 105–108

N. P. Cakić, see G. V. Milovanović.

F. Calio' and E. Marchetti:
On Zeros of Complex Polynomials Related to Particular Gauss-Kronrod Quadrature Formulas **7** (1992), 49–58

F. Cammaroto and Lj. Kočinac:
On θ-Tightness **8** (1993), 77–85

M. R. Capobianco and N. Mastronardi:
A Numerical Method for a Volterra-type Integral Equations With Logarithmic Kernel **13** (1998), 127–138

A. Casal, see H. Talibi.
